

Dear All:

I am writing to express my comments about the proposed Low Power FM expansion.

I currently listen to KLOVE on FM Transalator 88.7 in my area and would be outraged if this station were "bumped" by LPFM station.

My family and I have been blessed by having KLOVE in our area. I provides us with spiritual information and uplifting entertainment we cannot find in other media outlets. It also notifies us of significant events in our area which otherwise would not mentioned elsewhere.

If KLOVE were displaced by an LPFM station, this area would be severely hindered by the loss of a great community and family-oriented broadcast station. I believe that because of this family- oriented broadcasting service, many families are stronger and closer in this area. This includes my family.

Sincerely,
KT Norwood
